GRADING STANDARDS

GEM NEW: Fully new, better than average margins for the issue on all four sides. Excellent centering of the design both face and back, no signs of aging; and of course no folds or pinholes.

CHOICE NEW: Fully new, almost as nice as gem, but not quite there.

NEW: Fully new, no trace of circulation, it may be off center, it may have some aging, it might have a pinhole.

CHOICE ABOUT NEW: Close examination will find a trace of a circulation-caused defect; some light soil, a corner fold, etc.

ABOUT NEW: A note that has seen some very light use. It will appear new unless examined closely.

EXTRA FINE: A note that has been clearly circulated, but has

no serious defects. Still bright, no folds breaking the ink. **VERY FINE:** Well circulated, but still with some body to the paper. Folds may just barely break the ink in some places. Still an attractive note, with all features of the design very clear.

It has always been our opinion that the grading of currency is far from an exact science. Experience, knowledge, common sense, personal preference, eye appeal and opinion all come into play. Our goal is to develop new customers who will be with us long term for repeat business. To this end all notes are graded by the above standards to the best of our ability. If there should be any disagreement please do not just swallow a note you are not pleased with and go away. That's bad for us both. Let us know the way you see it and we will work with you.
